

KONDURU YASWANTH RAJU

yaswanthraju.konduru123@gmail.com | 9XXXXXXXXX | Bangalore, India | LinkedIn | GitHub

PROFESSIONAL SUMMARY

Computer Science Engineering graduate specializing in Artificial Intelligence and Machine Learning. Skilled in Python, JavaScript, web development, data analysis, and machine learning model development. Experienced in building CNN-based classification systems, AI automation workflows, dashboards, and cybersecurity-focused ML solutions.

SKILLS

Programming Languages: Python, C, C++, JavaScript

Web Development: HTML, CSS, Bootstrap

Database & Tools: SQL, MongoDB, Git/GitHub, VS Code, Google Colab

ML/DL Frameworks: TensorFlow, PyTorch, Keras, Scikit-learn, OpenCV

Data & Analytics: Power BI, Excel, Pandas, NumPy, Matplotlib

Audio & Signal Processing: Librosa, MFCCs, pitch, energy, spectral features

Soft Skills: Problem-solving, teamwork, project management, adaptability

Languages: English (Proficient), Telugu (Native), Hindi (Intermediate)

INTERNSHIP

BlueStock Fintech - Web Development Intern | June 2025

- Implemented dynamic IPO listing cards using JavaScript to display company details, pricing, issue size, and listing dates.
- Designed and developed an expandable FAQ section using JavaScript event handling to improve user experience.
- Tech Stack: HTML, CSS, JavaScript.

PROJECTS

AI-Based Voice Phishing Detection System | Python, Machine Learning

- Built a machine learning system to identify voice phishing calls by analyzing audio recordings, speech behavior, and acoustic patterns.
- Performed audio preprocessing including noise reduction, normalization, silence trimming, and sampling-rate conversion.
- Extracted MFCCs, pitch, energy, spectral centroid, zero crossing rate, and chroma features using Librosa.
- Trained and evaluated classification models using accuracy, precision, recall, and F1-score.
- Tech Stack: Python, NumPy, Pandas, Scikit-learn, Librosa, Matplotlib, Machine Learning.

DermaScan - Skin Disease Detection using CNN | May 2024

- Developed a CNN model using TensorFlow to classify four types of skin diseases with approximately 90% accuracy.
- Applied preprocessing and augmentation to improve dataset quality and reduce overfitting.
- Tech Stack: Python, TensorFlow, Keras, OpenCV, NumPy.

MCP Assistant - Multi-Tool AI Automation | July 2025

- Built an AI-powered automation assistant with MCP servers integrating Gmail Writer, LinkedIn Poster, and Railway Info Checker.
- Improved workflow efficiency by 40% through faster drafting, automated posting, and streamlined retrieval.
- Tech Stack: Cursor IDE, MCP Servers, LLM APIs.

Real Mart Sales Analysis | Feb 2024

- Developed an interactive Power BI dashboard for KPI tracking, regional trends, category-wise insights, and payment-mode analysis.
- Reduced manual data effort by 40% and supported a 25% faster decision-making process.
- Tech Stack: Power BI, Kaggle, Excel.

EDUCATION

B.Tech in Computer Science Engineering - Artificial Intelligence & Machine Learning

CMR University, Bangalore | CGPA: 8.97 / 10 | Completed | 2022 - 2026

Higher Secondary Education (12th Grade)

Narayana Junior College | Percentage: 90.2% | 2020 - 2022

CERTIFICATIONS

- AI-ML & Data Science Certification - Ethical Edufabrica & IISc Bangalore
- Build Your Own Static Website - HTML, CSS, Bootstrap
- Build Your Own Responsive Website - Bootstrap, Flexbox
- Introduction to Database - SQL

ACHIEVEMENTS & COURSES

- Ice Breaker - Python Coding Challenge, 3rd Prize | CMR University | July 2023
- Full Stack Development | NxtWave CCBP 4.0 Academy | 2022 - Present
